Dear Miss Hitch,

Thank you for your thoughtful letter. My continuing work denies me the opportunity for lengthy reply. I have just finished the rough draft of my fifth book on this subject.

Had you read more than a single one of the book, I think you'd know how close your reasoning takes you, yet how far from right because of a few basic errors. To cite two: Oswald was not pro-Communist but violently anti-Communist. He was not pro-Castro but was connected, as my New Orleans book will show, with the anti-Castro forces. He did not try and "infiltrate" them; he worked with them.

Enclosed is a flyer listing our books to date. You will see the attention the New York Times gave PHOTOGRAPHIC WHITEWASH, which goes very much to the intent of the government in the investigation.

Sincerely,

Harold Weisberg
